JOEY LEUNG 梁祖彝

Born in 1981 in Hong Kong, Joey Leung Cho-Yi graduated from Royal Melbourne Institute of Technology in 2011, receiving a Bachelor of Fine Arts degree with a major in ceramic. Joey has been a professional photographer since 2001, while simultaneously building his artistic path as a professional ceramicist.

Fish is a signature symbol in Joey's ceramic works, including his hand-painted fish dishes and fish sculptures. The emphasis of marine creatures is his way of always presenting his thoughts through his works. He wishes to seek for the traces of social traditions, while recording the happenings in current society and predicting how people can enjoy or preserve their life in the future. He tries to put his emotions in the works at the same time, allowing people to feel and think, rather than just creating something that is eye-catching.

Joey has received a number of awards from professional and reputable organizations, such as Hong Kong Press Photographers Association and Hong Kong News Industry Council, and taken part in various group and solo exhibitions in recent years.
